What is a Weather Guarantee?

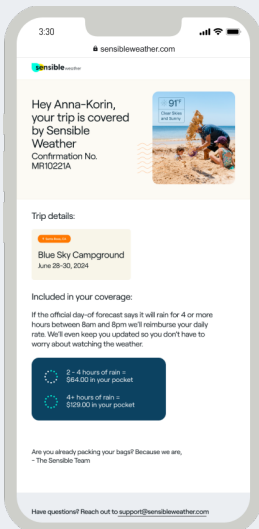

Sensible's Weather Guarantee gives guests the option to protect their camping reservation from the risk of a rainy forecast. No cancellation necessary.

Cancellations or Modifications

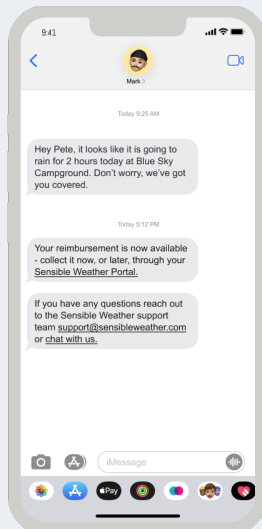

Weather Guarantees do not impact your own cancellation policy. If campers cancel or modify their reservation, a pop-up will appear to remind the user to notify the camper to contact Sensible directly to cancel or modify their Weather Guarantee.

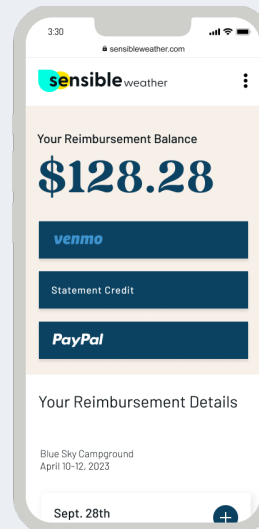

What Guests With a Weather Guarantee See

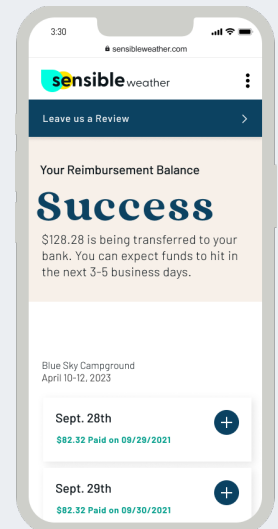

After a camper purchases a Weather Guarantee, Sensible will send a confirmation email and a day before reminder email which includes their bespoke coverage details.

Sensible will automatically contact campers on the day of the bad forecast by SMS and email to alert them that they have a reimbursement waiting for them.

Campers can choose to be reimbursed by Sensible via various payment methods. Campgrounds do not pay out reimbursements.

Funds typically arrive within 3-5 business days. Guests enjoy their day and you keep your money - it's a win-win!
